

Breast Changes and Breast Cancer

Warning Signs that need Medical Attention!

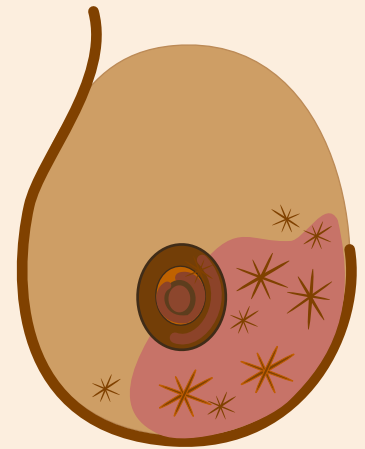

Do not ignore these symptoms or delay seeing a medical professional. A needle biopsy and mammogram can help rule out possible cancer.

Hard or Soft Lump in breast, armpit, chest

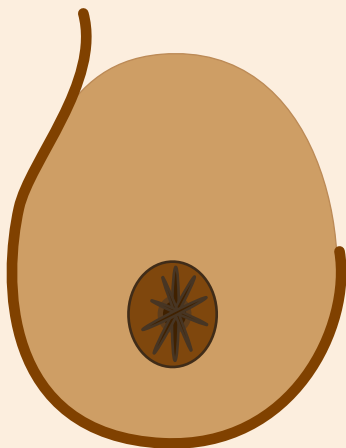

Breast sores that don't heal

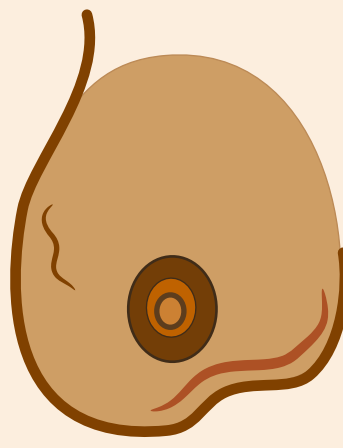

Redness, puckered, scaly, thickened skin

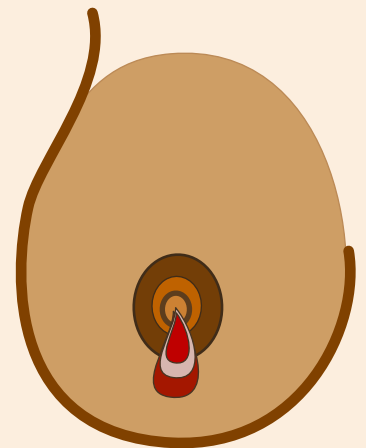

Early Detection = Early Treatment

Inverted, sunken nipple

Breast shape, size changes, bulges, dimples, flattens, shrinks or swells

Bloody, cloudy, smelly fluid, nipple leaking
